

SMA Fixed Torque Wrench in Click Type 5/16 inch Bit that is Pre-set to 4 in-lbs

Fairview Microwave's SMA torque wrench, part number 74Z-0-0-79, is a 5/16 bit click type that is preset to 4 in-lbs and designed to use with SMA connectors. This click type SMA torque wrench allows accurate mating force when assembling and disassembling a variety of RF coaxial connectors. The unique feature of click type RF wrenches is that once the preset torque value is reached, they will "click" which can be heard and felt, followed by a slight bend at the head, alerting the user to stop applying torque to the connector. Fairview Microwave's click type SMA torque wrenches are in-stock and also available for a wide variety of other RF connectors, all of which ship the same day.

Configuration

Torque Type	Fixed
Design Type	Click
Hex Size	5/16 in
Torque Setting	4 in-lbs [0.45 Nm]
Torque Accuracy	±0.885 in-lbs [±0.1 Nm]

Size

Length	4.53 in [115.06 mm]
Handle Diameter	0.571 in [14.5 mm]

Weight	0.2176 lbs [98.7 g]
--------	---------------------

Compliance Certifications (see [product page](#) for current document)

Notes:

- Do not use on damaged connectors.
- To improve performance of a wrench that hasn't been used recently, actuate the wrench by clicking the wrench head back and forth several times before use. This will spread the lubricant through the internal mechanism.
- Click type tools require smooth consistent application of force. Each torquing action should be completed within 2 seconds. Slower or faster torquing action will detract from accuracy.

SMA Fixed Torque Wrench in Click Type 5/16 inch Bit that is Pre-set to 4 in-lbs from Fairview Microwave is in-stock and available to ship same-day.
