

Miter RA TNC Male to TNC Male Adapter with Passivated Stainless Steel Body, DC to 18 GHz

Miter RA TNC male to TNC male adapter part number FMAD1581 from Fairview Microwave is in-stock and ships same day. This Fairview TNC to TNC adapter has a male to male gender configuration and is built of durable stainless steel. FMAD1581 TNC male to TNC male adapter operates to 18 GHz. The Fairview Microwave RF adapter provides good VSWR of 1.3:1 maximum. This miter right angle TNC adapter allows for easier connections in tight spaces.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
