

Engineering Grade 2.92mm Female (Jack) to 1.85mm Male (Plug) Adapter with Stainless Steel Body

2.92mm female to 1.85mm male adapter part number FMAD1620 from Fairview Microwave is in-stock and ships same day. This Fairview 2.92mm to 1.85mm adapter has a female to male gender configuration and is built of durable stainless steel in a engineering grade design. FMAD1620 2.92mm female to 1.85mm male adapter operates to 40 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.25:1 maximum. The 2.92mm connector mates mechanically with commercially available SMA and 3.5mm connectors. The 1.85mm connector mates mechanically with commercially available 2.4mm connectors.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Configuration:

- 2.92mm Female Connector 1
- 1.85mm Male Connector 2
- 50 Ohm
- Engineering Grade Design
- Straight Body Geometry

Features:

- VSWR of 1.25:1 max up to 40 GHz
- Gold Over Nickel Plated Beryllium Copper Contact

Applications:

- Enables Between Series Connections
- General Purpose Test
