Description

78 Ohm TRS Subminiature Plug 1553 Connector Clamp/Solder Attachment for M17/176-00002 Cable, part number FMCN10-10030-206, from Fairview Microwave is in-stock and ships same day. This TRS Subminiature plug connector operates up to a maximum frequency of 500 MHz. TRS Subminiature Plug connector has a bayonet coupling design with a center contact and an intermediate cylindrical contact. TRS connectors are preferred in applications that require weight reduction, high packing density, and noise-free guarded circuits. TRS connectors can increase packing density to more than 240% compared to TRB standard connectors. The reduced size limits the maximum outer cable diameter to 0.250 inches.

Fairview's 78 ohm TRS Subminiature plug connector FMCN10-10030-206 datasheet specifications and outline drawing are shown in this PDF below.
