

Standard Gain Horn Cage Style Antenna Mount, Waveguide Size WR2300, IEC R3

The Fairview Microwave FMWAN2300-MNT antenna mount is a compact and versatile solution designed to accommodate a gain horn antenna with specific dimensions. With a length of 28.35 inches and a height of 13.78 inches, this mount provides a sturdy and secure platform for the antenna. Weighing only 28.67 pounds, this antenna holder is lightweight and easy to handle, making it convenient for various applications. This antenna mount is specifically stocked to be readily available for same business day shipment.

The FMWAN2300-MNT antenna mount from Fairview Microwave is compatible with the IEC R3 standard and supports gain horn antennas with a waveguide size of WR2300. The aluminum body of this mount offers lightweight construction, while still maintaining robustness for test and measurement applications. With chromate conversion for a sleek inside finish and coated with anticorrosion gray paint, our antenna mount ensures protection against environmental factors.

Fairview Microwave has one of the largest in-stock selections of gain horn antenna mounts for international and domestic orders. Make your online purchase right now to take advantage of our same business day shipping. For further information on similar antenna accessories, our expert technical support and knowledgeable sales team can help you get the perfect gain horn antenna mount for your requirements.
