

## Precision SMA Female to N Female 4 Hole Flange Adapter

Precision SMA female to type N female 4 hole flange adapter part number SM4208 from Fairview Microwave is in-stock and ships same day. This Fairview SMA to type N adapter has a female to female gender configuration in a precision design. SM4208 SMA female to type N female adapter operates to 18 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.15:1 maximum. The SMA connector mates mechanically with commercially available 3.5mm and 2.92mm (K) connectors. Our RF SMA to type N 4 hole flange adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

### Configuration:

- SMA Female Connector 1
- N Female Connector 2
- 50 Ohm
- Precision Design
- Straight Body Geometry
- 4 Hole Flange Mount Method

### Features:

- VSWR of 1.15:1 max up to 18 GHz
- SMA interface meets MIL-STD-348
- Type N interface meets MIL-STD-348
- Contact plating according to MIL-G-45204
- Gold Plated Contact

### Applications:

- Enables Between Series Connections
- General Purpose Test
- Rack Mounted Equipment
- Precision Test & Measurement
